EDUCATION

Dr. D Y PATIL UNIVERSITY, RAIT

2022 - 2026

B. Tech in Computer Science & Engineering(AI/ML)

TECHNICAL SKILLS

• Programming Languages:

Python, Java, HTML, CSS

• AI & Machine Learning:

Large Language Models (LLMs), Anomaly Detection, Content Classification, Natural Language Processing (NLP)

• Computer Science Basics:

Object-Oriented Programming (OOP), Data Structures, Software Engineering Principles

• Tools & APIs:

Gemini API, OpenAI Whisper, Edge TTS, Git/GitHub, LaTeX

PROFILE

Driven Computer Science & Engineering major with expertise in Artificial Intelligence/Machine Learning (AI/ML). Proficient with Python, Java, and LLMs in creating intelligent solutions. Sound knowledge of software development and front-end design (HTML/CSS) with extensive experience in developing highly complex projects such as adaptive AI systems and security detection systems. Enthusiastic about applying theoretical knowledge along with practical experience in the field of software engineering or AI development.

TECHNICAL PROJECTS

ADAPTIVE AI-POWERED MOCK INTERVIEW SYSTEM

-TECHNOLOGIES USED: PYTHON, GEMINI API, OPENAI WHISPER, EDGE TTS

SENSITIVE CONTENT DETECTION SYSTEM

-TECHNOLOGIES USED: PYTHON, MACHINE LEARNING/NLP

ANOMALY DETECTION SYSTEM

-TECHNOLOGIES USED: PYTHON, MACHINE LEARNING LIBRARIES

NEBULA NODE

-Technologies Used: React, TypeScript, D3.js, and Zustand
